1. Identification

GHS Product Identifier: B02703310002

Product Name: PALMOLIVE AYURITUELS SHOWER GEL - ENERGY

GHS classification of the substance/mixture: Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Company Name: Colgate-Palmolive Pty Ltd (ABN 002 792 163)

Address: Australia: Level 14, 345 George Street, Sydney NSW 2000 Australia

Tel: AUS (02) 9229 5600 NZ: 04 576 6700
Fax: AUS (02) 9229 5700, NZ: 04 568 8835

Emergency phone number: AUS 1800 638 556, NZ: 0800 764766

Recommended use of the chemical and restrictions on use: Shower gel.

Other Information: New Zealand Address: Level 4, 45 Knights Road, Lower Hutt.

4. First-aid measures

Inhalation: If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms persist seek medical attention.

Ingestion: Do NOT induce vomiting. Wash out mouth with water. If symptoms develop seek medical attention.

Skin: Discontinue use if irritation develops. If symptoms persist seek medical attention.

Eye contact: If in eyes, hold eyelids apart and flush the eyes continuously with running water. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and persist seek medical attention.

First Aid Facilities: Eyewash and normal washroom facilities.

Advice to Doctor: Treat symptomatically.

Other Information: For advice in an emergency, contact a Poisons Information Centre (Phone Australia 13 1126; New Zealand 0800 POISON / 0800 764 766) or a doctor at once.
5. Fire-fighting measures

**Suitable extinguishing media**
- Use appropriate fire extinguisher for surrounding environment.

**Hazard from Combustion Products**
- Under fire conditions this product may emit toxic and/or irritating fumes and gases including carbon monoxide and carbon dioxide.
- This product is non-combustible. However, following evaporation of aqueous component under fire conditions, the non-aqueous component may decompose and/or burn.

**Precautions in connection with Fire**
- Fire-fighters should wear full protective clothing and self contained breathing apparatus (SCBA) operated in positive pressure mode.

6. Accidental release measures

**Emergency Procedures**
- Slippery when spilt - avoid accidents. Wear appropriate personal protective equipment and clothing to minimise exposure. Increase ventilation. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place it into a suitable labelled container. Do not dilute material but contain. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

7. Handling and storage

**Precautions for Safe Handling**
- Avoid contact with eyes. Industrial applications: Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of mists or vapours in the work atmosphere. Avoid inhalation of vapours and mists, and skin or eye contact. Maintain high standards of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or using toilet facilities.
- Store in a cool, dry, well-ventilated area. Keep containers closed when not in use. Store in suitable, labelled containers.

8. Exposure controls/personal protection

**Occupational exposure limit values**
- No exposure standards have been established for this material by Safe Work, Australia. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.

**Biological Limit Values**
- No Biological limit available.

**Appropriate engineering controls**
- No special engineering controls required. Industrial Applications: Provide sufficient ventilation to keep airborne levels below the exposure limits. Where vapours or mists are generated, particularly in enclosed areas, and natural ventilation is inadequate, a local exhaust ventilation system is required.

**Respiratory Protection**
- Not required under normal conditions of use. Industrial Applications: Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices.

**Eye Protection**
- Not required. However, avoid eye contact. Industrial Applications: Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications

**Hand Protection**
- Not required under normal conditions of use. Industrial Applications: Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

**Body Protection**
- Not required under normal conditions of use. Industrial Applications: Suitable protective work wear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

9. Physical and chemical properties
### Appearance
Amber clear liquid

### Odour
Not available

### Decomposition Temperature
Not available

### Melting Point
Not available

### Boiling Point
Not available

### Solubility in Water
Soluble

### Specific Gravity
1.025 (25°C)

### pH
5.2 (25°C)

### Vapour Pressure
Not available

### Vapour Density (Air=1)
Not available

### Evaporation Rate
Not available

### Odour Threshold
Not available

### Viscosity
Not applicable

### Flash Point
Non-combustible liquid

### Flammability
Non-combustible liquid

### Auto-Ignition Temperature
Not applicable

### Flammable Limits - Lower
Not applicable

### Flammable Limits - Upper
Not applicable

### Stability and reactivity
Stable under normal conditions of storage and use.

### Conditions to Avoid
Extremes of temperature and direct sunlight.

### Incompatible Materials
Not available

### Hazardous Materials
Not available

### Hazardous Decomposition Products
Will not occur.

### Toxicological Information

#### Ingestion
Ingestion of this product may irritate the gastric tract causing nausea and vomiting.

#### Inhalation
Unlikely route of exposure, however if product mists or vapours are inhaled may cause irritation of the nose, throat and respiratory system.

#### Skin
Not considered to be hazardous when in contact with skin. However, for sensitive individuals, product may cause redness, itching and irritation.

#### Eye
May cause eye irritation, tearing, stinging, blurred vision, and redness.

#### Respiratory sensitisation
Not expected to be a respiratory sensitiser.

#### Skin Sensitisation
Not expected to be a skin sensitiser.

#### Germ cell mutagenicity
Not considered to be a mutagenic hazard.

#### Carcinogenicity
Not considered to be a carcinogenic hazard.
Product Name: PALMOLIVE AYURITUELS SHOWER GEL - ENERGY

Not classified as hazardous

Reproductive Toxicity
Not considered to be toxic to reproduction.

STOT-single exposure
Not expected to cause toxicity to a specific target organ.

STOT-repeated exposure
Not expected to cause toxicity to a specific target organ.

Aspiration Hazard
Not expected to be an aspiration hazard.

12. Ecological information

Ecotoxicity
No ecological data are available for this material.

Persistence and degradability
Not available

Mobility
Not available

Environmental Protection
Prevent large quantities of this material entering waterways, drains and sewers.

13. Disposal considerations

Disposal Considerations
The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations.

14. Transport information

Transport Information
Road and Rail Transport (ADG Code):

Marine Transport (IMO/IMDG):
Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

Air Transport (ICAO/IATA):
Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

IMDG Marine pollutant
No

15. Regulatory information

Regulatory Information
Not classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.
Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).
Not Scheduled

Poisons Schedule

AICS (Australia)
All components of this product are listed on the Australian Inventory of Chemical Substances (AICS) or exempted.

16. Other Information

Date of preparation or last revision of SDS
SDS Created: February 2013
