Safety Data Sheet

1. Identification

**GHS Product Identifier**

**Product Code**

**Company Name**

Colgate-Palmolive Pty Ltd (ABN 002 792 163)

**Address**

Australia: Level 14, 345 George Street, Sydney
NSW 2000 Australia

Tel: AUS (02) 9229 5600 NZ: 04 576 6700
Fax: AUS (02) 9229 5700, NZ: 04 568 8835

AUS 1800 638 556, NZ: 0800 764766

**Product Name**: PALMOLIVE NATURALS MILK AND OLIVE BODY WASH

**GHS Product Identifier**: B02935690008

Not classified as hazardous

1. Identification

2. Hazard Identification

Not classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

3. Composition/information on ingredients

4. First-aid measures

**Inhalation**: If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms persist seek medical attention.

**Ingestion**: Do NOT induce vomiting. Wash out mouth with water. If symptoms develop seek medical attention.

**Skin**: Discontinue use if irritation develops. If symptoms persist seek medical attention.

**Eye contact**: If in eyes, hold eyelids apart and flush the eyes continuously with running water. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and persist seek medical attention.

**First Aid Facilities**: Normal washroom facilities.

**Advice to Doctor**: Treat symptomatically.

**Other Information**: For advice in an emergency, contact a Poisons Information Centre (Phone Australia 13 1126) or a doctor at once.

5. Fire-fighting measures

**Suitable extinguishing media**: Use appropriate fire extinguisher for surrounding environment.
Hazardous Combustion Products
This product is non-combustible. However, following evaporation of aqueous component under fire conditions, the non-aqueous component may decompose and/or burn.

Precautions in connection with Fire
Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) operated in positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Water spray may be used to cool down heat-exposed containers.

6. Accidental release measures

Emergency Procedures
Wear appropriate personal protective equipment and clothing to minimise exposure. Increase ventilation. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Do not dilute material but contain. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

7. Handling and storage

Precautions for Safe Handling
Avoid contact with eyes. Industrial applications: Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of mists or vapours in the work atmosphere. Avoid inhalation of vapours and mists, and skin or eye contact. Maintain high standards of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or using toilet facilities.

Conditions for safe storage, including any incompatibilities
Store in a cool, dry, well-ventilated area. Keep containers closed when not in use. Store in suitable, labelled containers.

8. Exposure controls/personal protection

Occupational exposure limit values
No exposure standards have been established for this material by Safe Work, Australia. However, over-exposure to some chemicals may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions and should be kept to the least possible levels.

Biological Limit Values
No Biological limit available.

Appropriate engineering controls
No special engineering controls required. Industrial Applications: Provide sufficient ventilation to keep airborne levels as low as possible. Where vapours or mists are generated, particularly in enclosed areas, and natural ventilation is inadequate, a local exhaust ventilation system is required.

Respiratory Protection
Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices.

Eye Protection
Not required. However, avoid eye contact. Industrial Applications: Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 – Eye Protectors for Industrial Applications

Hand Protection
Not required under normal conditions of use. Industrial Applications:
Reference should be made to AS/NZS 2161.1: Occupational protective gloves – Selection, use and maintenance.

Body Protection
Not required under normal conditions of use. Industrial Applications: Suitable protective work wear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

9. Physical and chemical properties

Appearance
Pale green liquid

Odour
Not available
Product Name: PALMOLIVE NATURALS MILK AND OLIVE BODY WASH

Not classified as hazardous

Decomposition Temperature Melting Point Boiling Point Solubility in Water Specific Gravity pH
Not available Not available Not available Soluble 1.025 (25°C) 5.2 (25°C)

Vapour Pressure Vapour Density (Air=1) Evaporation Rate Odour Threshold Viscosity Partition Coefficient: n-octanol/water Flash Point Flammability Auto-Ignition Temperature Flammable Limits - Lower Flammable Limits - Upper

Stability and reactivity
Reactivity Chemical Stability Conditions to Avoid Incompatible Materials Hazardous Decomposition Products Hazardous Polymerization
Reacts with incompatibles. Stable under normal conditions of storage and use. Extremes of temperature and direct sunlight. Not available Thermal decomposition may result in the release of toxic and/or irritating fumes. Will not occur.

Toxicological Information
Toxicology Information Ingestion Inhalation Skin Eye Respiratory sensitisation Skin Sensitisation Germ cell mutagenicity Carcinogenicity
No toxicity data available for this product. Ingestion of this product may irritate the gastric tract causing nausea and vomiting. Unlikely route of exposure, however if product mists or vapours are inhaled may cause irritation of the nose, throat and respiratory system. May be irritating to skin. The symptoms may include redness, itching and swelling. May be irritating to eyes. The symptoms may include redness, itching and tearing. Not expected to be a respiratory sensitiser. Not expected to be a skin sensitiser. Not considered to be a mutagenic hazard. Not considered to be a carcinogenic hazard.
Infosafe No™ LPUD9 Issue Date :August 2013 ISSUED by COLGATE

Product Name: PALMOLIVE NATURALS MILK AND OLIVE BODY WASH

Not classified as hazardous

Reproductive Toxicity
STOT-single exposure
STOT-repeated exposure
Aspiration Hazard

Not expected to be toxic to reproduction.
Not expected to cause toxicity to a specific target organ.
Not expected to cause toxicity to a specific target organ through prolonged or repeated exposure.
Not expected to be an aspiration hazard.

12. Ecological information

Ecotoxicity
Persistence and degradability
Mobility
Bioaccumulative Potential
Environmental Protection

No ecological data are available for this material.

Not available
Not available
Prevent large quantities of this material entering waterways, drains and sewers.

13. Disposal considerations

Disposal Considerations
The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations.

14. Transport information

Transport Information
Road and Rail Transport (ADG Code):

Marine Transport (IMO/IMDG):
Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

Air Transport (ICAO/IATA):
Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.
No

15. Regulatory information

Regulatory Information
Not classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.
Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).
Not Scheduled

Poisons Schedule
AICS (Australia)
All components of this product are listed on the Australian Inventory of Chemical Substances (AICS) or exempted.

16. Other Information

Date of preparation or last revision of SDS
SDS Reviewed: August 2013
Supersedes: May 2010
