1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name: FLUFFY FABRIC SOFTENER F1000 (READY TO USE)- LONGER LASTING FRAGRANCE

Company Name: Colgate-Palmolive Pty Ltd (ABN 002 792 163)
Address: Australia: Level 14, 345 George Street, Sydney NSW 2000 Australia
Emergency Tel.: AUS 1800 638 556, NZ: 0800 764766
Telephone/Fax Number: Tel: AUS (02) 9229 5600 NZ: 04 576 6700 Fax: AUS (02) 9229 5700, NZ: 04 568 8835

Recommended Use: Fabric softener.

Other Names:
- FLUFFY FABRIC SOFTENER RTU - JASMINE
- FLUFFY FABRIC SOFTENER RTU - SUMMER BREEZE
- FLUFFY FABRIC SOFTENER RTU - WHITE LAVENDER

New Zealand Address: Level 4, 45 Knights Road, Lower Hutt.

2. HAZARDS IDENTIFICATION

Hazard Classification:
- NON-HAZARDOUS SUBSTANCE.
- NON-DANGEROUS GOODS.

Hazard classification according to the criteria of NOHSC.
Dangerous goods classification according to the Australia Dangerous Goods Code.

Safety Phrases:
- S25 Avoid contact with eyes.

3. COMPOSITION/INFORMATION ON INGREDIENTS

4. FIRST AID MEASURES

Inhalation: If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms persist seek medical attention.

Ingestion: Do not induce vomiting. Wash out mouth thoroughly with water. If symptoms develop seek medical attention. (never give anything by mouth if affected person is semi-conscious or unconscious-seek medical attention).

Skin: Wash affected area thoroughly with soap and water. If symptoms develop seek medical attention.
Material Safety Data Sheet

Product Name: FLUFFY FABRIC SOFTENER F1000 (READY TO USE)- LONGER LASTING FRAGRANCE

Eye
If in eyes, hold eyelids apart and flush the eyes continuously with running water. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and persist seek medical attention.

First Aid Facilities
Eywash and normal washroom facilities.

Advice to Doctor
Treat symptomatically.

Other Information
For advice in an emergency, contact a Poisons Information Centre (Phone Australia 13 1126; New Zealand 0800 POISON / 0800 764 766) or a doctor at once.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media
Use appropriate fire extinguisher for surrounding environment.

Hazard from Combustion
Non-combustible material

Specific Hazards
Non-combustible material

Precautions in connection with Fire
Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) operated in positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Water spray may be used to cool down heat-exposed containers.

6. ACCIDENTAL RELEASE MEASURES

Emergency Procedures
Slippery when spilt. Avoid accidents, clean up immediately. Small spill: Mop up & wash residue to drain with copious amounts of water. Large spill: Wear appropriate personal protective equipment and clothing to minimise exposure, since product is acidic. Increase ventilation. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Do not dilute material but contain. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

7. HANDLING AND STORAGE

Precautions for Safe Handling
Industrial applications: Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of mists or vapours in the work atmosphere. Avoid inhalation of vapours and mists, and skin or eye contact as product is acidic. Maintain high standards of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or using toilet facilities.

Conditions for Safe Storage
Store in a cool, dry, well-ventilated area, out of direct sunlight. Store in suitable, labelled containers. Keep containers closed when not in use. Avoid contact with incompatible materials such as strong oxidising agents and materials that will react with water. Protect from frost.

Not corrosive to metals.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

National Exposure Standards
No exposure value assigned for this material by Safe Work, Australia. However, the available exposure limits for ingredients are listed below:

<table>

Print Date: 31/10/2012

Page: 2 of 5
TWA (Time Weighted Average): The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day week.
STEEL (Short Term Exposure Limit): The average airborne concentration over a 15 minute period which should not be exceeded at any time during a normal eight-hour workday.
Peak Limitation: A ceiling concentration which should not be exceeded over a measurement period which should be as short as possible but not exceeding 15 minutes.
Ceiling: A concentration that should not be exceeded during any part of the working day.
'Sk' Notice: Absorption through the skin may be a significant source of exposure. The exposure standard is invalidated if such contact should occur.
'Sen' Notice: The substance may cause sensitisation by skin contact or by inhalation.

Biological Limit Values
2-Propanol [67-63-0] Acetone in urine End of shift 40 mg/L at end of work week

Engineering Controls
No special engineering controls required. Industrial applications: Use with good general ventilation. If mists or vapours are produced, local exhaust ventilation should be used.

Respiratory Protection
Not normally required. Industrial applications: Safety glasses with side shields, goggles or full-face shield as appropriate recommended. Final choice of appropriate eye/face protection will vary according to individual circumstances ie. methods of handling or engineering controls and according to risk assessments undertaken. Eye protection should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.

Eye Protection
Not normally required. Industrial applications: Wear gloves of impervious material conforming to AS/NZS 2161: Occupational protective gloves - Selection, use and maintenance. Final choice of appropriate glove type will vary according to individual circumstances. This can include methods of handling, and engineering controls as determined by appropriate risk assessments.

Hand Protection
Not normally required. Industrial applications: Suitable protective clothing should be worn e.g. cotton overalls buttoned at neck and wrist. When large quantities are handled the use of plastic aprons and rubber boots is recommended.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Smooth, free flowing viscous liquid.

Odour
Not available

Melting Point
Not available

Boiling Point
Soluble

Solubility in Water
0.99-1.01

Specific Gravity
2-3

pH Value
Not available

Vapour Pressure
160 - 400 cps (25°C)

Colour
Jasmine: White
White Lavender: Light Purple Pink
Summer Breeze: Yellow

Flash Point
Not applicable

Print Date: 31/10/2012
Material Safety Data Sheet

Product Name: FLUFFY FABRIC SOFTENER F1000 (READY TO USE) - LONGER LASTING FRAGRANCE

Flammability: Non-combustible liquid
Auto-Ignition: Not available
Temperature: Not applicable
Flammable Limits - Lower: Not applicable
Flammable Limits - Upper: Not applicable

10. STABILITY AND REACTIVITY

Chemical Stability: Stable under normal conditions of storage and handling.
Conditions to Avoid: Extremes of temperature and direct sunlight.
Incompatible Materials: Strong oxidising agents, materials that may react with water.
Hazardous Decomposition Products: Not available
Hazardous Polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION

Toxicology Information: No toxicity data are available for this material.
Inhalation: Inhalation of product vapours may cause irritation of the nose, throat and respiratory system.
Ingestion: Ingestion of this product may irritate the gastric tract causing nausea and vomiting.
Skin: May be irritating to skin. The symptoms may include redness, itching and swelling.
Eye: May be irritating to eyes. The symptoms may include redness, itching and tearing.
Chronic Effects: Prolonged or repeated skin contact may cause irritation leading to dermatitis.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Not available
Persistence / Degradability: Not available
Mobility: Not available
Environ. Protection: Prevent large quantities of this material entering the environment.

13. DISPOSAL CONSIDERATIONS

Disposal Considerations: The disposal of large quantities of spilled or waste material must be done in accordance with applicable local and national regulations.

14. TRANSPORT INFORMATION

Transport Information: Road and Rail Transport:

Marine Transport (IMO/IMDG):
Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

Air Transport (ICAO/IATA):
Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.
Product Name: FLUFFY FABRIC SOFTENER F1000 (READY TO USE)- LONGER LASTING FRAGRANCE

15. REGULATORY INFORMATION

Regulatory Information: Not classified as Hazardous according to criteria of National Occupational Health & Safety Commission (NOHSC), Australia. Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

Poenis Schedule: Not Scheduled

16. OTHER INFORMATION
