1. Identification

SAVACOL ANTISEPTIC MOUTH AND THROAT RINSE - FRESH MINT

GHS Product Identifier: B06706710001

Company Name: Colgate-Palmolive Pty Ltd (ABN 002 792 163)
Address: Australia: Level 14, 345 George Street, Sydney NSW 2000 Australia
Telephone/Fax Number: Tel: AUS (02) 9229 5600 NZ: 04 576 6700 Fax: AUS (02) 9229 5700, NZ: 04 568 8835
Emergency phone number: AUS 1800 638 556, NZ: 0800 764766

Product Code: Colgate-Palmolive Pty Ltd (ABN 002 792 163)
Address: Australia: Level 14, 345 George Street, Sydney NSW 2000 Australia
Telephone/Fax Number: Tel: AUS (02) 9229 5600 NZ: 04 576 6700 Fax: AUS (02) 9229 5700, NZ: 04 568 8835
Emergency phone number: AUS 1800 638 556, NZ: 0800 764766

Other Information:

Recommended use of the chemical and restrictions on use: Antiseptic mouth and throat rinse.

New Zealand Address: Level 4, 45 Knights Road, Lower Hutt.

2. Hazard Identification

Not classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

3. Composition/information on ingredients

<table>
<thead>

4. First-aid measures

Inhalation: If inhaled, remove affected person from contaminated area. Keep at rest until recovered. If symptoms persist seek medical attention.

Ingestion: Do NOT induce vomiting. Wash out mouth with water. If symptoms develop seek medical attention.

Skin: Wash affected area thoroughly with soap and water. Remove contaminated clothing and wash before reuse or discard. If symptoms develop seek medical attention.

Eye contact: If in eyes, hold eyelids apart and flush the eyes continuously with running water. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and persist seek medical attention.

First Aid Facilities: Eye wash and normal washroom facilities.

Advice to Doctor: Treat symptomatically.

Other Information: For advice in an emergency, contact a Poisons Information Centre (Phone Australia 13 1126; New Zealand 0800 POISON / 0800 764 766) or a doctor at once.

5. Fire-fighting measures

Suitable extinguishing media: Use carbon dioxide, dry chemical, foam, water fog or water mist.

Hazards from Combustion: Under fire conditions this product may decompose and produce irritating fumes and gases including carbon monoxide and carbon dioxide.

Specific hazards arising from the chemical: This product is non-combustible. However, following evaporation of aqueous component under fire conditions, the non-aqueous component may decompose and/or burn.

Decomposition Temp: Not available.
Precautions in connection with Fire

Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) and full protective clothing to prevent exposure to vapours, fumes or products of combustion. Water spray may be used to cool down heat-exposed containers.

6. Accidental release measures

Emergency Procedures

Wear appropriate personal protective equipment and clothing to minimise exposure. Increase ventilation. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Do not dilute material but contain. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

7. Handling and storage

Precautions for Safe Handling

Use only in a well ventilated area. Keep containers sealed when not in use. Prevent the build up of mists or vapours in the work atmosphere. Avoid inhalation of vapours and mists, and skin or eye contact. Maintain high standards of personal hygiene i.e. Washing hands prior to eating, drinking, smoking or using toilet facilities.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry, well-ventilated area, out of direct sunlight. Store in suitable, labelled containers. Keep containers closed when not in use. Ensure that storage conditions comply with applicable local and national regulations.

8. Exposure controls/personal protection

Occupational exposure limit values

No exposure value assigned for this material by Safe Work, Australia. However, the available exposure limits for ingredients are listed below:

<table>
<thead>
<tr>
<th>Substance</th>
<th>TWA (ppm)</th>
<th>TWA (mg/m³)</th>
<th>STEL (ppm)</th>
<th>STEL (mg/m³)</th>
<th>NOTICES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ethanol</td>
<td>1000</td>
<td>1880</td>
<td>-</td>
<td>-</td>
<td></td>
</tr>
</tbody>
</table>

TWA (Time Weighted Average): The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day week.

STEL (Short Term Exposure Limit): The average airborne concentration over a 15 minute period which should not be exceeded at any time during a normal eight-hour workday.

No biological limit allocated.

Biological Limit Values

Use with good general ventilation. If mists or vapours are produced, local exhaust ventilation should be used.

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable mist filter should be used. Reference should be made to Australian/New Zealand Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

Respiratory Protection

Eye Protection

Safety glasses with side shields or chemical goggles should be worn. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform with Australian/New Zealand Standard AS/NZS 1337 – Eye Protectors for Industrial Applications.

Hand Protection

Wear gloves of impervious material. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1: Occupational protective gloves – Selection, use and maintenance.

Body Protection

Suitable protective work wear, e.g. cotton overalls buttoned at neck and wrist is recommended. Chemical resistant apron is recommended where large quantities are handled.

9. Physical and chemical properties

Appearance: Blue clear liquid

Odour: Minty odour.
Safety Data Sheet

Product Name: SAVACOL ANTISEPTIC MOUTH AND THROAT RINSE - FRESH MINT

Not classified as hazardous

Decomposition Temperature Not available
Melting Point Not available
Boiling Point Not available
Solubility in Water Soluble
Specific Gravity 1.0025 (25°C)
pH 6.25
Vapour Pressure Not available
Vapour Density (Air=1) Not available
Evaporation Rate Not available
Viscosity Water thin.
Flash Point Not available
Flammability Non-flammable
Auto-Ignition Temperature Not available
Flammable Limits - Lower Not available
Flammable Limits - Upper Not available
Kinematic Viscosity Not available
Dynamic Viscosity Not available

10. Stability and reactivity
Reactivity Reacts with incompatible materials.
Chemical Stability Stable under normal conditions of storage and handling.
Conditions to Avoid Extremes of temperature and direct sunlight.
Incompatible Materials Strong oxidising agents.
Hazardous Decomposition Thermal decomposition and combustion produce noxious fumes containing oxides of carbon.
Products
Hazardous Polymerization Will not occur.

11. Toxicological Information
Toxicology No toxicity data available for this product.
Information Ingestion Ingestion may cause irritation to the gastric tract, with stomach pain, nausea and vomiting.
Inhalation Inhalation of product vapours may cause irritation of the nose, throat and respiratory system.
Skin May be irritating to skin. The symptoms may include redness, itching and swelling.
Eye May be irritating to eyes. The symptoms may include redness, itching and tearing.
Respiratory Not expected to be a respiratory sensitiser.
sensitisation Skin Sensitisation Not expected to be a skin sensitiser.
Germ cell Not considered to be a mutagenic hazard.
mutagenicity Carcinogenicity Not considered to be a carcinogenic hazard.
Safety Data Sheet

Infosafe No™ LPX4H  Issue Date: March 2013  ISSUED by COLGATE

Product Name: SAVACOL ANTISEPTIC MOUTH AND THROAT RINSE - FRESH MINT

Not classified as hazardous

12. Ecological information

Ecotoxicity   No ecological data are available for this material.
Persistence and degradability   Not available
Mobility   Not available
Bioaccumulative Potential   Not available
Environmental Protection   Prevent this material entering waterways, drains and sewers.

13. Disposal considerations

Disposal Considerations   Dispose of waste according to applicable local and national regulations.

14. Transport information

Transport Information

Air Transport (ICAO/IATA): Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

IMDG Marine pollutant   No

15. Regulatory information

Regulatory Information

Not classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.
Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

16. Other Information

Date of preparation or last revision of SDS: SDS Created: March 2013
